

Clear Creek State Park appreciates your support of our annual Sustainability Fair. DCNR is strategically investing in infrastructure, transportation and energy use/production to create a department that is more sustainable for both present and future generations. Together with today's presenters, we hope you discover ways to incorporate new products, techniques, or technology into your life that will conserve and respect our resources.

Special thanks to the Western PA Girl Scouts

Sustainability Fair

Wednesday,
August 7, 2019
10:00 AM – 1:00 PM
